

On Call Domestic Violence Caseworkers

We are currently expanding our pool of On Call Domestic Violence Caseworkers who cover planned and unplanned absences on our 24/7 crisis phonenumber team, located in our residential community.

In these roles, Caseworkers provide phone-based support, counseling, advocacy, and referrals to people who are impacted by domestic violence, and in-person support to our emergency shelter and transitional housing program residents. They may also collect clients from public locations and bring them into our shelter; conduct intakes, shelter orientations, and peer counseling.

On Call Caseworkers typically work on their own, so, after a period of competency-based training and assessment, they are expected to be able to work independently with minimum supervision. They often need to make decisions in crisis situations, so **previous experience answering a crisis or counseling line and/or working in a residential community is required.**

Information management is vital to maintaining excellence in our service delivery, and our On Call Caseworkers keep up to date, accurate documentation of client contact and activity that occurs while they are working.

COVID-19

Safety is one of our key values. We have developed a robust COVID-specific Illness Prevention Plan, adopted new policies and practices, and provided training that aims to reduce the risk of exposure to employees, volunteers, clients, and visitors. These positions work **onsite** in our facilities. Remote work is not available for these roles.
